Your Strongest Partner for
Expansion Control Systems

 **BASF**
We create chemistry

What we bring to your project

Dedication, quality, and world-class results—on time and on budget.

World-class
expansion
control
systems for
world-class
projects

Full project support

As your strongest partner, not only will Watson Bowman Acme provide you with customized expansion control system solutions, we will also support your business throughout each phase of your project.

Life Safety Systems

Product lines specifically designed for and tested to the most stringent standards in Fire Barrier and Seismic Movement.

Lead Generation

Local sales support backed by corporate research teams to find the best-fit projects.

Estimating

Commitment to fast and accurate project quotations and takeoffs.

Engineering Support

Customized concepts, designs, and drawings for project-based solutions.

Order Management

Delivery/freight options that fit your specific business needs.

Technical Services

Field training and on-site technical assistance readily available.

Being the industry leader means something

Commitment to quality, service, and reliability. It's about committing to innovation, setting the industry standard, and providing you with world-class solutions.

Technical Expertise

We hire the best talent in the industry to bring real solutions for your specific needs and challenges. No project or unique design requirement is too difficult for the Watson Bowman Acme Team of experts.

Innovation

Watson Bowman Acme has designed and manufactured systems for the world's most complex projects. With access to BASF's state-of-the-art research and development resources, innovation continues to be critical to our success. And yours.

Custom Solutions

It's more than just technical expertise. From custom designs, to full systems created specifically for Architectural structures, we are constantly collaborating across our entire team to deliver the most effective results at minimal costs.

Quality

You can't have quality without commitment to continuous improvement. Combined with a dedication to providing only the highest quality products and services, a recent \$2 million+ investment in process and equipment improvements, an ISO 9001:2008 certification, all supported by Lean Six Sigma tools and methodology, we keep manufacturing lean and get you top results—on time and on budget.

Watson Bowman Acme's architectural building systems do more than just allow for the necessary movement between rigid elements. They also protect the entire structure, ensuring sustainability, all while meeting the functional demands and aesthetic appeal of the most challenging projects.

Partnership, support, and deep expertise

Watson Bowman Acme, a BASF Construction Chemicals business is at the industry forefront of the design and manufacturing of expansion joints.

Watson Bowman Acme provides technical support and product solutions for the most complex and challenging applications, with deep expertise across all industries.

Watson Bowman Acme is the only expansion control company to offer expert solutions across all market sectors.

Our breadth of knowledge in the bridge and parking industries has led to better designed and manufactured products for commercial and institutional architectural buildings.

WBA offers the design and construction community a broad portfolio of options and custom solutions that will meet your project's form, fit and functional requirements. Creative hallmarks such as aesthetics, performance, durability and life safety are engineered into each Wabo® branded system.

Ask your WBA sales rep for information regarding our American Institute of Architects (AIA) courses for Continuing Education Credits.

Watson Bowman Acme Expansion Control Solutions for architectural buildings

Interior Wall and Ceiling Systems:

Wabo®FastWall

Thermal and shear movement

Wabo®SeismicCover

Attractive for high-visibility areas

Wabo®CorridorWrap

Narrow sightlines

Wabo®Countour II

For complex directional changes

Wabo®SeisMax Plus Wall

Nearly invisible seismic system

Wabo®TwinSeam Wall

Totally flush system

Wabo®WeatherSeam Interior

Attractive colorable design

Exterior Wall Systems:

Wabo®Compression Seal

Water resistant seal, color matching

Wabo®SeismicCover WFX

Durable and vandal resistant

Wabo®WeatherSeal II

Colorable foam seal

Wabo®Seismic WeatherSeal

Pre-compressed colorable joint seal

Wabo®Flash

Flexible water-proof closure

Wabo®WeatherSeam

Water-tight seismic system

Exterior Roof Joint Systems:

Wabo®RoofCover

Engineered for flat and sloped roofs

Wabo®Flash

Flexible water-proof closure

Interior Floor Systems:

Wabo®Allure

Nearly invisible to surroundings

Wabo®Compression Seal

Water resistant seal, color matching

Wabo®SeismicFloor

Seismic self-centering technology

Wabo®SeisMax Plus

No-bump, ADA compliant

Wabo®ConvexCover

Durable and reliable

Wabo®HingeMount

Ideal for retrofit projects

Wabo®TwinSeam

Aesthetically pleasing system

Wabo®SeismicPan

Nearly invisible, protects during earthquakes

Wabo®VIP

Heavy-duty interior system

Wabo®FastFloor

For thermal and seismic movement

Wabo®CorridorWrap

Narrow sightlines

Life Safety Fire Barrier Systems:

Wabo®FlameGuard II

Exceeds fire endurance ratings

Wabo®FireFlex

Multi-directional capable

Wabo®ThermoShield

Caulk and sealant free

Wabo®FireShield

Precompressed watertight fire rated system
